SUMMARY

Frontend Developer with **2+ years** of experience building scalable and responsive web applications using **Angular, React.js, TypeScript, JavaScript (ES6+), Bootstrap**, and **Tailwind CSS**. Strong hands-on experience with Angular features including **Reactive Forms, Routing, RxJS, Signals, Services, Route Guards**, and **Lazy Loading**. Skilled in **REST API integration, JWT authentication**, reusable component architecture, performance optimization, and responsive UI development. Familiar with **Node.js, Express.js**, and **MongoDB** through full-stack projects, with experience working in Agile environments using Git-based collaboration.

EXPERIENCE

Beedu Service Pvt Ltd

Frontend Developer

Aug. 2023 – Present
Kharghar, Mumbai, India

BeeduConnect – Education Management Platform <https://edux.jodetx.com>

- Multi-tenant academic ERP for preschools to universities covering Role-Based Access, Academic Config, Student, Employee, Exam & Enquiry modules.
- Built **10+ feature modules** in **Angular 18** with TypeScript, SCSS, and Bootstrap; implemented **RBAC** with route guards.
- Integrated **150+ RESTful APIs** for CRUD operations, real-time data handling, and JWT-secured authentication flows.
- Optimised performance via **lazy loading**, OnPush change detection, and shared component libraries.
- Worked closely with backend & QA teams using **Git/GitHub** for version control and **JIRA** for sprint-based task tracking.

ComeOnTime – Full Stack Attendance Management System <https://comeontime.com>

- Full-stack application built from scratch with **SuperAdmin / Admin / Employee** role hierarchy.
- Developed **React.js** frontend (Tailwind CSS) and **Node.js + Express.js** backend with **MongoDB** for data persistence.
- Implemented **JWT auth**, role-based middleware, attendance marking, leave workflows, and employee CRUD.
- Configured **CI/CD pipelines** for automated build and zero-downtime deployment of both frontend and backend.

ScadaDog – Industrial Automation Dashboard UI (**US-Based Client**) <https://scadadog.com>

- Built responsive, high-performance interface for an industrial **SCADA** monitoring and automation platform.
- Developed modular **React.js** components with **Tailwind CSS** to display real-time sensor and automation data.
- Ensured pixel-perfect responsiveness, accessibility compliance, and cross-browser compatibility.

EDUCATION

Maharaja Agrasen Himalayan Garhwal University

Bachelor of Computer Applications (BCA)

2020 – 2023
Uttarakhand, India

SKILLS

Frontend : Angular, React.js, HTML5, CSS3, SCSS, JavaScript (ES6+), TypeScript, Bootstrap, Tailwind CSS, jQuery

Backend : Node.js, Express.js, REST API Design, JWT Authentication, Middleware

Databases : MongoDB, MySQL

Stacks : MEAN Stack (MongoDB, Express.js, Angular, Node.js), MERN Stack (MongoDB, Express.js, React.js, Node.js)

DevOps / Tools : Git, GitHub, Bitbucket, CI/CD Pipelines, Postman, JIRA, VS Code, Sublime Text

Practices : Agile/Scrum, MVC Architecture, Responsive Design, RBAC, API Integration, Cross-browser Testing

PERSONAL DETAILS

Date of Birth : 02 April 1999 **Nationality** : Indian **Gender** : Male **Marital Status** : Single **Languages** : Hindi, English
